## DEADLINE TO REGISTER FOR A GOVERNMENT-SUBSIDISED DECODER IN THE FREE STATE AND NORTH WEST

**31 MARCH 2018**

The Department of Communications (DoC) is working together with the South African Post Office to distribute government-subsidised TV decoders to qualifying households countrywide.

Households in the Free State and North West earning below R3 200 per month have until 31 March 2018 to register at their nearest post offices for the free TV decoders.

The DoC also encourages ineligible households to acquire digital-enabled TV sets to avoid TV signal disruptions.

**Do not be left behind.**
